Internship

Summer Intern

June 2024 - July 2024

Cipher School

- Developed a deep understanding of OOP concepts, including classes, objects, inheritance, polymorphism, and encapsulation. Applied these principles to build modular and maintainable applications.
- Solved complex coding problems involving sorting, searching, recursion, and dynamic programming to improve problem-solving efficiency and algorithmic thinking.
- Created practical applications, such as simple game logic, file handling utilities, or basic data structures like linked lists and stacks, showcasing real-world use cases of C++.
- Learned effective techniques for optimizing C++ code performance and debugging using IDE tools, which helped in writing cleaner and more efficient programs.

Projects

Library Management System | *Responsive*

July 2024 - Aug 2024

- Developed a Library Management System in C++ to handle book inventory, member records, and transactions.
- Implemented features for book issuance, return, search functionality, and fine calculation.
- The project enhanced efficiency by automating manual processes, reducing errors, and streamlining operations for improved user experience.
- Github Repository Link: <https://github.com/Ambashishkumarsharma22>

Password Generator | *Responsive*

July 2024 - Aug 2024

- Developed a secure password generator using C++ with options for customizable length, special characters, and alphanumeric combinations.
- Enhanced security by ensuring strong password generation for applications, focusing on randomization and user-friendly functionality.
- Implemented advanced randomization techniques using the C++ standard library to ensure unpredictable and secure password generation, optimizing performance and meeting cybersecurity best practices for secure credential management.
- Github Repository Link: <https://github.com/Ambashishkumarsharma22>

Certificates

Summer Training

July 2024

Cipher School — [Certificate Link](#)

Cloud Computing from NPTEL

August 2024

NPTEL — [Certificate Link](#)

Technical Skills

Languages C++, Java, C, R, Tableau

Technologies/Frameworks: Git, GitHub, Ubuntu

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Scripting in Python and JavaScript

Education

Lovely Professional University Punjab

2022 – 2026

Computer Science and Engineering — CGPA: 6.2

Phagwara, Punjab

St Xavier School

2020 – 2021

12th with Science — Percentage: 94.6%

Jaunpur, Uttar Pradesh

St Xavier School

2018 – 2019

10th with Science — Percentage: 71.6%

Jaunpur, Uttar Pradesh
